Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

### INSTALLATION:

1. Remove the stock air filter and stock gasket.
2. Install the stock air filter bracket and screws onto the K&N® air filter.
3. Install the provided gasket onto the K&N® air filter.
4. Reinstall the stock breather hoses in the top two holes of the K&N® air filter.
5. Install the K&N® air filter into the air box.
6. Tighten the stock screws.
7. Reinstall the stock air cleaner cover.

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED,  
OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
